

Additive 4020

Product Application:

Additive 4020 is a concentrated additive designed for addition to caustic cleaners to handle hard water and difficult cleaning applications. Additive 4020 is economical and efficient at building bulk commodity caustic into a complete cleaner with improved cleaning and wetting ability. Additive 4020 can save you money by adding only the amount of builders needed for the soil load.

Properties:

Pounds per gallon: 10.9

Specific gravity: 1.31

Foaming properties: No foam

Use Directions:

Additive 4020 is designed to be used at 0.1-1% depending on the soil and the concentration of caustic. Additive 4020 can be used through mixing stations to blend caustic on site. Contact your **PureLabs** representative to work with you to design the concentration right for your facility.
