

AlkaBoil 2050

Product Application:

AlkaBoil 2050 is a high foaming premium built powdered alkali cleaner containing no chlorine and designed for difficult foam, manual and other cleaning applications where high foam characteristics are not an issue. AlkaBoil 2050 is strong enough to handle the most difficult manual, foam and boil-out cleaning applications and yet economical. The complex surfactants and builders in AlkaBoil 2050 dissolve the most difficult soils while maintaining free rinsing characteristics.

Properties:

Foaming properties: Very high foam

Use Directions:

AlkaBoil 2050 is designed for use in a variety of cleaning applications and can be pre-dissolved to foam clean through wall mounted and portable units. For cleaning in heavy soil conditions, solution strength of 1-2% will work for most soils. For other cleaning applications or specific cleaning recommendations contact your **PureLabs** representative who will design the best cleaning program for your facility.
