

CIP Acid 1010

Product Application:

CIP Acid 1010 is a very concentrated blended inorganic acid cleaner especially designed for circulation cleaning of high temperature processing equipment in the dairy and food processing industries. CIP Acid 1010 nitric/phosphoric blend will clean tough mineral soils while helping to maintain the passive nature of stainless steel.

Properties:

Pounds per gallon: 9.3

Specific gravity: 1.12

Foaming properties: Very low foam

Use Directions:

CIP Acid 1010 is designed for use at 0.3-1% solution strength depending on the equipment and soil. For heavy soil conditions in a HTST, Evaporator, Oven or Fryer, cleaning will be performed at 0.5% solution at 145-165°F for 20-30 minutes. Your **PureLabs** representative will work with you to design the best cleaning program for your facility.
