

## CIP Acid 1020

### Product Application:

CIP Acid 1020 is a very concentrated blended inorganic acid cleaner especially designed for CIP, COP and all circulation cleaning of critical processing equipment in the dairy and food processing industries. CIP Acid 1020 nitric/phosphoric blend will clean tough mineral soils while helping to maintain the passive nature of stainless steel.

### Properties:

Pounds per gallon: 10.4

Specific gravity: 1.25

Foaming properties: Very low foam

### Use Directions:

CIP Acid 1020 is designed for use at 0.3-1% solution strength depending on the equipment and soil. For difficult CIP applications with heavy mineral soils circulation cleaning will be performed at 0.5% solution at 145-165°F for 20-30 minutes. Your **PureLabs** representative will work with you to design the best cleaning program for your facility.
