

Chlor Foam 3030

Product Application:

Chlor Foam 3030 is a premium high foaming, chlorinated alkali cleaner designed to be used through foaming equipment for the cleaning of stainless steel and chemical resistant surfaces. Chlor Foam 3030 use of an advanced package of high foaming surfactants and emulsifiers provides superior cleaning and free rinsing characteristics. With premium ingredients you improve cleaning characteristics in all manual and foam cleaning applications.

Properties:

Pounds per gallon: 9.9

Specific gravity: 1.19

Foaming properties: Foaming

Use Directions:

Chlor Foam 3030 is designed for manual and foam cleaning applications in warm water at 1-4% solution strength depending on the equipment and soil. For difficult soils with heavy protein, cleaning will be performed at 1 ounce per 2 gallons of 120°F water. Your **PureLabs** representative will work with you to design the best cleaning program for your facility.
