

HT Alkali 2010

Product Application:

HT Alkali 2010 is a low foaming blended caustic cleaner especially designed for circulation and boil out operations on high temperature processing equipment in the dairy and food processing industries. HT Alkali 2010 is a blended/chelated caustic cleaner that will clean tough protein and burnt-on soils while handling moderate water hardness and heavy saturated soils.

Properties:

Pounds per gallon: 12.5

Specific gravity: 1.50

Foaming properties: Very low foam

Use Directions:

HT Alkali 2010 is designed for use at 0.5-3% solution strength depending on the equipment and soil. For heavy soil conditions in a HTST, Evaporator, Oven or Fryer, cleaning will be performed at 1-3% solution at 145-185°F for 30-60 minutes. Your **PureLabs** representative will work with you to design the best cleaning program for your facility.
